

# Sprint V

23 April 2021 09:35

## Sprint Planning

- We'll talk about the following:
  - Things we've done this week
    - ☐ ▪ Sharing in progress, can share website but not score
    - Calculate and present user with a final score (amount of sugar consumed)
    - ☒ ▪ Kyle is working on meal summary stuff --> try to finish today
    - ☐ ▪ Indicators is partially done
    - Clear workflow is partially done, diagrams are done
    - ☒ ▪ Manual is in progress/done; automated testing is driving Zack insane --> try to finish today
    - Olivia's working colourscheme; zack is maybe drawing more things
    - Conducted user testing has been done once
    - User journey? What is this?
  - Overall team goals for the next week
    - Score sharing
    - Indicators for sugar levels
      - ☐ Dialogue for hobbit
      - ☐ Maybe wizard.. Maybe...
      - ☐ If time, try to get sugar levels for each food item
    - User testing
      - ☐ User interview
    - Finished draft for write-up
      - ☐ Doesn't have to be perfect
  - Tasks we want to do over the next week
  - Discuss progress towards primary goals
- Goals:
  - Have a clear team focus for the next sprint

- Each member knows what they'll be focusing on for the next week
- Understand how the next week fits in meeting our primary goals

Kyle has pdf of standups and meetings.
